

Charging lines with small ball valve

The REFCO hoses with ball valve are especially suitable for ecosensitive applications. These REFCO-hoses are also supplied with teflon gaskets. The lifetime of teflon-gasket compared to ordinary rubber is at least 10 times longer. The barb of the hose, as well as the teflongasket have been equipped with a new invented quick-snapper system to prevent falling out of the hose.

Charging lines with built-in ball valve

Designation	Length	<i>Single charging lines</i>		
		Part No B	Part No R	Part No Y
CX-CL-36	90 cm	9881412	9881411	9884216
CX-CL-60	150 cm	9881410	9881409	9883021
CX-CL-72	180 cm	9881408	9881407	9881407

Ball valve for charging hoses

Designation		Part No
CX-2-B	Valve without accessories, blue, I.D. 1/4" G both sides	9881186
CX-2-R	Valve without accessories, red, I.D. 1/4" G both sides	9881185
CX-2-Y	Valve without accessories, yellow, I.D. 1/4" G both sides	9882535

Designation		Part No
CX-1/4"SAE-B	Valve in connection with charging hoses, O.D. 1/4" SAE, I.D. 1/4" SAE with loose nut and core depressor, blue	9881184
CX-1/4"SAE-R	Valve in connection with charging hoses, O.D. 1/4" SAE, I.D. 1/4" SAE with loose nut and core depressor, red	9881183

Designation		Part No
CX-3/16"SAE-B	Valve in connection with charging hose, O.D. 1/4" SAE, I.D. 3/16" SAE with loose nut and valve core depressor (A/C systems R12, low side), blue	9882158
CX-3/16"SAE-R	Valve in connection with charging hose, O.D. 1/4" SAE, I.D. 3/16" SAE with loose nut and valve core depressor (A/C systems R12, low side), red	9881182

Designation		Part No
CX-3/8"SAE-B	Valve in connection with large hoses, O.D. 3/8" SAE, I.D. 3/8" SAE with loose nut and valve core depressor, blue	9881181
CX-3/8"SAE-R	Valve in connection with large hoses, O.D. 3/8" SAE, I.D. 3/8" SAE with loose nut and valve core depressor, red	9881180
